Position of the European parliament adopted at first reading on 13 January 2009 with a view to the adoption of Directive 2009/.../EC of the European Parliament and of the Council on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) (recast)

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 47(2) thereof,

Having regard to the proposal from the Commission,

Acting in accordance with the procedure laid down in Article 251 of the Treaty¹,

Whereas:

- (1) Council Directive 85/611/EEC of 20 December 1985 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS)² has been substantially amended several times³. Since further amendments are to be made, it should be recast in the interests of clarity.
- (2) Directive 85/611/EEC has largely contributed to the development and success of the European investment funds industry. However, despite the improvements introduced since its adoption and in particular in 2001, it has steadily become clear that changes need to be introduced into the UCITS legal framework in order to adapt it to the 21st century financial markets. The || Commission Green Paper of 12 July 2005 on the enhancement of the EU framework for investment funds launched a public debate on the way the Directive should be adapted in order to meet these new challenges. This intense consultation process led to the largely shared conclusion that substantial amendments are needed.
- (3) National laws governing collective investment undertakings should be coordinated with a view to approximating the conditions of competition between those undertakings at Community level, while at the same time ensuring more effective and more uniform protection for unit-holders. Such coordination facilitates the removal of the restrictions on the free movement of the units of UCITS in the Community.
- (4) Having regard to these objectives, it is desirable to provide for common basic rules for the authorisation, supervision, structure and activities of UCITS established in the Member States and the information they must publish.
- (5) The coordination of the laws of the Member States should be confined to UCITS other than of the closed-ended type which promote the sale of their units to the public in the Community. It is desirable that UCITS should be permitted as part of their investment

³ See Annex III, Part A.

objective to invest in financial instruments, other than transferable securities, which are sufficiently liquid. The financial instruments which are eligible to be investment assets of the portfolio of the UCITS should be listed in this Directive. The selection of investments for a portfolio by means of an index is a management technique.

- (6) *Whereby a provision of this Directive requires the UCITS to take action, the provision should be understood to refer to the management company in cases where the UCITS is constituted as a common fund managed by a management company and where a common fund is not in a position to act by itself because it has no legal personality of its own.*
- (7) Authorisation granted to the management company in its home Member State should ensure investor protection and the solvency of management companies, with a view to contributing to the stability of the financial system. The approach adopted is to ensure the essential harmonisation necessary and sufficient to secure the mutual recognition of authorisation and of prudential supervision systems, making possible the grant of a single authorisation valid throughout the Community and the application of the home Member State supervision.
- (8) *Units of UCITS are to be considered as financial instruments for the purposes of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments¹.*
- (9) It is necessary, for the protection of investors, to guarantee the internal overview of every management company in particular by means of a two-man management and by adequate internal control mechanisms.
- (10) In order to ensure that the management company will be able to fulfil the obligations arising from its activities and thus to ensure its stability, initial capital and an additional amount of own funds are required. To take account of developments, particularly those pertaining to capital charges on operational risk within the Community and other international fora, these requirements, including the use of guarantees, should be reviewed.
- (11) By virtue of the principle of home Member State supervision, management companies authorised in their home Member States should be permitted to carry on the services for which they have received authorisation throughout the Community by establishing branches or under the freedom to provide services. ■
- (12) With regard to collective portfolio management (management of unit trusts/common funds and investment companies), the authorisation granted to a management company authorised in its home Member State should permit the company to carry on in host Member States the following activities *without prejudice to Chapter XI*: to distribute *through a branch* the units of the harmonised unit trusts/common funds managed by *this* company in its home Member State; to distribute the shares of the harmonised investment companies, managed by such a company, *through the establishment of a branch*; to *distribute the units of the harmonised unit trusts/common funds or shares of the harmonised investment companies managed by other management companies*; to perform all the other functions and tasks included in the activity of collective portfolio

¹ OJ L 145, 30.4.2004, p. 1.

management; to manage the assets of investment companies incorporated in Member States other than its home Member State; to perform, on the basis of mandates, on behalf of management companies incorporated in Member States other than its home Member State, the functions included in the activity of collective portfolio management. ***When a management company distributes the units of its own harmonised unit trusts/common funds or shares of its own harmonised investment companies in host Member States, without the establishment of a branch, it should only be subject to rules regarding cross-border marketing.***

- (13) The principle of home Member State supervision requires that the competent authorities should not grant or should withdraw authorisation where factors, such as the content of programmes of operations, the geographical distribution or the activities actually carried on indicate clearly that a management company has opted for the legal system of one Member State for the purpose of evading the stricter standards in force in another Member State within the territory of which it intends to carry on or does carry on the greater part of its activities. For the purpose of this Directive, a management company should be authorised in the Member State in which it has its registered office. In accordance with the principle of **home country supervision**, only the **competent authorities of the management company's home Member State** can be considered competent to **supervise the organisation of the management company, including all procedures and resources to perform the administrative functions referred to in Annex II, which should be subject to the law of the management company's home Member State.**
- (14) ***The competent authorities which authorise the UCITS should take into account the rules of the common fund or the instruments of incorporation of the investment company, the choice of the depositary and the ability of the management company to manage the UCITS. When the management company is located in another Member State, they should be able to rely on an attestation, by the competent authorities of the management company's home Member State, regarding the type of UCITS that the management company can manage. Authorisation of a UCITS should neither be conditioned to additional capital requirement at the level of the management company, nor to the location of the management company's registered office in the UCITS home Member State, nor to the location of any activity of the management company in the UCITS home Member State.***
- (15) ***The competent authorities of the management company's host Member State should be competent to supervise compliance with the rules regarding the constitution and functioning of the UCITS, which should be subject to the law of the UCITS home Member State. To this end, the competent authorities of the management company's host Member State should be able to get information directly from the management company. In particular, management company's host Member State may require management companies to provide information on transactions concerning the investments of the UCITS authorised in that Member State, including information contained in books and records of these transactions and fund accounts. To remedy any breach of the rules under their responsibility, the competent authorities of the management company's host Member States should be able to rely on the cooperation of the competent authorities of the management company's home Member State and, if necessary, they should be able to take action directly against the management company.***

- (16) *The UCITS home Member State may provide for rules regarding the content of the unit-holder register of the UCITS. The organisation of the maintenance and the location of this register should however remain part of the organisational arrangements of the management company.*
- (17) *In the event that the UCITS is managed by a management company authorised in a Member State other than the UCITS home Member State, that management company should set up appropriate procedures and arrangements adopted by the management company to deal with investor complaints, e.g. through appropriate provisions in distribution arrangements or through an address in the UCITS home Member State, which need not be an address of the management company itself. The management company should also set up appropriate procedures and arrangements to make information available at the request of the public or the competent authorities of the UCITS home Member State, e.g. through the designation of a contact person, from among the employees of the management company, to deal with requests for information. However, such management company should not be obliged by the law of the UCITS home Member State to have a local representative in that Member State in order to fulfil those duties.*
- (18) *It is necessary to provide the UCITS home Member State with all means to remedy any breach in the rules of the UCITS; to that end, the UCITS home Member State should be able to take preventive measures as well as sanctions against the management company. As a last resort, the UCITS home Member State should have the possibility to require the management company to cease managing the UCITS. Member States should provide for the necessary provisions so as to arrange for an orderly management or liquidation of the UCITS in such a case.*
- (19) In order to prevent supervisory arbitrage and to promote confidence in the effectiveness of supervision by the home Member State authorities, a requirement for authorisation of a UCITS should be that it should not be prevented in any legal way from being marketed in its home Member State. This does not affect the free decision, once the UCITS has been authorised, to choose the Member State(s) where the units of the UCITS are to be marketed in accordance with this Directive.
- (20) With regard to the scope of activity of management companies and in order to take into account national legislation of Member States and to permit such companies to achieve important economies of scale, it is desirable to permit such companies to carry out also the activity of management of portfolios of investments on a client-by-client basis (individual portfolio management) including the management of pension funds as well as some specific non-core activities linked to the main business. Such a scope of the activity of the management company would not prejudice the stability of such companies. However, specific rules should be laid down preventing conflicts of interest when management companies are authorised to carry on both the business of collective and individual portfolio management.
- (21) The activity of management of individual portfolios of investments is an investment service covered by Directive 2004/39/EC¹¹. In order to ensure a homogeneous regulatory framework in this area, it is desirable to subject management companies, the authorisation of which also covers that service, to the operating conditions laid down in that Directive.

- (22) A home Member State may, as a general rule, establish rules stricter than those laid down in this Directive, in particular as regards authorisation conditions, prudential requirements and the rules on reporting and the prospectus.
- (23) It is desirable to lay down rules defining the preconditions under which a management company may delegate, on the basis of mandates, specific tasks and functions to third parties so as to increase the efficiency of the conduct of its business. In order to ensure the correct functioning of the principle of the home Member State supervision, Member States permitting such delegations should ensure that the management company to which they granted an authorisation does not delegate globally its functions to one or more third parties, so as to become a letter box entity, and that the existence of mandates does not hinder an effective supervision over the management company. However, the fact that the management company has delegated its own functions should in no case affect the liabilities of that company and of the depositary vis-à-vis the unit holders and the competent authorities.
- (24) ***In order to ensure a level playing field and appropriate supervision in the long term, the Commission may examine the possibilities for harmonising delegation arrangements at Community level.***
- (25) To safeguard shareholders' interests and to secure a level playing field in the market for harmonised collective investment undertakings, an initial capital is required for investment companies. However, investment companies which have designated a management company will be covered through the management company's additional amount of own funds.
- (26) Articles 13 and 14 should always be complied with by authorised investment companies, either by the company directly *in accordance with Article 30* or indirectly, due to the fact that if an authorised investment company chooses to designate a management company, that management company should be authorised in accordance with this Directive and thus obliged to comply with Articles 13 and 14.
- (27) Despite the need for consolidation between UCITS, mergers of UCITS encounter many legislative and administrative difficulties in the Community. It is therefore necessary, in order to improve the functioning of the *internal market*, to lay down Community provisions facilitating mergers between UCITS (and investment compartments thereof). Although some Member States ***may authorise*** only contractual funds, ***cross border*** mergers between all types of ***UCITS*** (contractual, corporate and unit trusts) should be allowed and recognised by **■** each Member State. ***This does not require Member States to introduce new legal forms of UCITS into their national regulation.***
- (28) This Directive covers those merger techniques which are most commonly used in **■** Member States. ***It does not imply that all Member States have to introduce all three techniques into their national laws but each Member State should recognise a transfer of assets resulting from these merger techniques. This Directive*** does not prevent UCITS from using other techniques on a ***purely*** domestic **■** basis, ***in situations where none of the UCITS concerned by the merger has been notified for cross-border marketing of its units. Those mergers*** will **■** remain subject to the relevant provisions of national law. ***Quorum rules should not discriminate between national and cross-border mergers, nor should they be more stringent than those laid down for mergers of corporate entities.***

- (29) In order to safeguard investors' interests, Member States should require proposed mergers between UCITS either within their jurisdiction or on a cross-border basis to be subject to authorisation by their competent authorities. For cross-border mergers, the competent authorities of the merging UCITS *should* approve the merger so as to ensure that the interests of the unit-holders who effectively change *UCITS* are duly protected. If the merger involves more than one merging UCITS and such UCITS are domiciled in different Member States, the competent authorities of each merging UCITS will need to approve the merger, in close cooperation with each other, *including through appropriate information sharing*. Since the interests of the unit-holders of the receiving UCITS also need to be adequately safeguarded, they should be taken into account by the competent authorities of the *receiving UCITS*' home Member State .
- (30) *Furthermore, unit-holders of both the merging UCITS and the receiving UCITS should have the right to request the re-purchase or redemption of their units or, where possible, to convert them into units in another UCITS with similar investment policies and managed by the same management company or by another company linked to it. This right should not be subject to any additional charge, i.e. it should be subject only to the fees to be retained exclusively by the respective UCITS to cover disinvestment costs in all situations, as laid down in the respective prospectuses.*
- (31) Third-party control of mergers *should also be ensured*. The depositaries of each of the UCITS involved in the merger should verify the conformity of the common draft terms of the merger with the relevant provisions of this Directive and of the UCITS fund rules. *Either a depositary or* an independent auditor should draw-up a report on behalf of all the UCITS involved in the merger validating the valuation methods of the assets and liabilities of such UCITS and the calculation method of the exchange ratio as set forth in the common draft terms of merger *as well as the actual exchange ratio and, where applicable, the cash payment per unit*. In order to limit costs connected with cross-border mergers, it should be possible to draw up a single report for all UCITS involved and the statutory auditor of the merging UCITS and/or the receiving UCITS should be enabled to do so. For investor protection reasons, unit-holders should be offered the possibility to obtain a copy of such report free of charge.
- (32) It is particularly important that the unit-holders are adequately informed about the proposed merger and that their rights are sufficiently protected. Although unit-holders of the merging UCITS are most concerned, the interests of the unit-holders of the receiving UCITS should also be safeguarded .
- (33) The provisions on mergers laid down in this Directive are without prejudice to the application of the legislation on control of concentrations between undertakings, in particular Council Regulation (EC) No 139/2004 of 20 January 2004 on the control of concentrations between undertakings (the EC Merger Regulation)¹.
- (34) The free marketing of the units issued by UCITS authorised to invest up to 100 % of their assets in transferable securities issued by the same body (State, local authority, etc.) may not have the direct or indirect effect of disturbing the functioning of the capital market or the financing of the Member States.

¹ OJ L 24, 29.1.2004, p. 1.

- (35) The definition of transferable securities included in this Directive is valid only for this Directive and in no way affects the various definitions used in national legislation for other purposes such as taxation. Consequently, shares and other securities equivalent to shares issued by bodies such as building societies and industrial and provident societies, the ownership of which cannot in practice be transferred except by the issuing body buying them back, are not covered by this definition.
- (36) Money market instruments cover those transferable instruments which are normally not traded on regulated markets but dealt in on the money market, for example treasury and local authority bills, certificates of deposit, commercial papers, medium-term notes and bankers' acceptances.
- (37) It is useful to ensure that the concept of regulated market in this Directive corresponds to that in Directive 2004/39/EC.
- (38) It is desirable to permit a UCITS to invest its assets in units of UCITS and other collective investment undertakings of the open-ended type which also invest in liquid financial assets mentioned in this Directive and which operate on the principle of risk spreading. It is necessary that UCITS or other collective investment undertakings in which a UCITS invests be subject to effective supervision.
- (39) The development of opportunities for a UCITS to invest in UCITS and in other collective investments undertakings should be facilitated. It is therefore essential to ensure that such investment activity does not diminish investor protection. Owing to the enhanced possibilities for UCITS to invest in the units of other UCITS and collective investment undertakings, it is necessary to lay down certain rules on quantitative limits, the disclosure of information and prevention of the cascade phenomenon.
- (40) To take market developments into account and in consideration of the completion of economic and monetary union it is desirable to permit UCITS to invest in bank deposits. To ensure adequate liquidity of investments in deposits, these deposits are to be repayable on demand or have the right to be withdrawn. If the deposits are made with a credit institution the registered office of which is located in a third country, the credit institution should be subject to prudential rules equivalent to those laid down in Community legislation.
- (41) In addition to the case in which a UCITS invests in bank deposits according to its fund rules or instruments of incorporation, it may be necessary to allow all UCITS to hold ancillary liquid assets, such as bank deposits at sight. The holding of such ancillary liquid assets may be justified, for example, in the following cases: in order to cover current or exceptional payments; in the case of sales, for the time necessary to reinvest in transferable securities, money market instruments and/or in other financial assets provided for in this Directive; for a period of time strictly necessary when, because of unfavourable market conditions, the investment in transferable securities, money market instruments and in other financial assets must be suspended.
- (42) For prudential reasons it is necessary to avoid excessive concentration by a UCITS in investments which expose it to counterparty risk to the same entity or to entities belonging to the same group.

- (43) UCITS should be explicitly permitted, as part of their general investment policy and/or for hedging purposes in order to reach a set financial target or the risk profile indicated in the prospectus, to invest in financial derivative instruments. In order to ensure investor protection, it is necessary to limit the maximum potential exposure relating to derivative instruments so that it does not exceed the total net value of the UCITS's portfolio. In order to ensure constant awareness of the risks and commitments arising from derivative transactions and to check compliance with investment limits, these risks and commitments will have to be measured and monitored on an ongoing basis. Finally, in order to ensure investor protection through disclosure, UCITS should describe their strategies, techniques and investment limits governing their derivative operations.
- (44) ***Measures to address the potential misalignment of interests in products where credit risk is transferred by securitisation, as envisaged in respect of Directives 2006/48/EC of the European Parliament and of the Council of 14 June 2006 relating to the taking up and pursuit of the business of credit institutions (recast)¹ and 2006/49/EC of the European Parliament and of the Council of 14 June 2006 on the capital adequacy of investment firms and credit institutions (recast)², need to be consistent and coherent in all relevant financial sector regulation. The Commission intends to bring forward the appropriate legislative proposals, including regarding this Directive, to ensure this will be the case, after duly considering the impact.***
- (45) With regard to over-the-counter (OTC) derivatives, requirements should be set in terms of the eligibility of counterparties and instruments, liquidity and ongoing assessment of the position. The purpose of such requirements is to ensure an adequate level of investor protection, close to that which they obtain when they acquire derivatives dealt in on regulated markets.
- (46) Operations in derivatives may never be used to circumvent the principles and rules set out in this Directive. With regard to OTC derivatives, additional risk-spreading rules should apply to exposures to a single counterparty or group of counterparties.
- (47) Some portfolio management techniques for collective investment undertakings investing primarily in shares and/or debt securities are based on the replication of stock indices and/or debt-security indices. It is desirable to permit UCITS to replicate well-known and recognised stock indices and/or debt-security indices. It may therefore be necessary to introduce more flexible risk-spreading rules for UCITS investing in shares and/or debt securities to this end.
- (48) Collective investment undertakings falling within the scope of this Directive should not be used for purposes other than the collective investment of the money raised from the public according to the rules laid down in this Directive. In the cases identified by this Directive a UCITS may have subsidiaries only when necessary to carry out effectively on behalf of that UCITS certain activities, also defined in this Directive. It is necessary to ensure an effective supervision of UCITS. Therefore the establishment of a subsidiary of a UCITS in a third country should be permitted only in the cases and under the conditions identified in this Directive. The general obligation to act solely in the interests of unit-holders and, in particular, the objective of increasing cost efficiencies, never justify a

² OJ L 177, 30.6.2006, p. 201.

UCITS undertaking measures which may hinder the competent authorities from exercising effectively their supervisory functions.

- (49) The original version of Directive 85/611/EEC contained a derogation from the restriction on the percentage of its assets that a UCITS can invest in transferable securities issued by the same body, which applied in the case of bonds issued or guaranteed by a Member State. This derogation allowed UCITS to invest in particular up to 35 % of their assets in such bonds. A similar derogation, but of a more limited extent is justified with regard to private sector bonds which, even in the absence of a State guarantee, nevertheless offer special guarantees to the investor under the specific rules applicable thereto. It is necessary therefore to extend such a derogation to the totality of such bonds which fulfil jointly fixed criteria, while leaving it to the Member States to draw up the list of bonds to which they intend, where appropriate, to grant a derogation.
- (50) Several Member States have enacted provisions that enable non-coordinated collective investment undertakings to pool their assets in one so-called master fund. In order to allow UCITS to make use of these structures, it is necessary to exempt "feeder UCITS" wishing to pool their assets in a "master UCITS", from the prohibition to invest more than 10% or, as the case may be 20% in one investment fund. This exemption is justified as the feeder UCITS invests all or almost all of its assets into the diversified portfolio of the master UCITS which itself is subject to UCITS diversification rules.
- (51) In order to facilitate the effective operation of the *internal market* and to ensure the same level of investor protection throughout the Community, both master-feeder-structures where the master and the feeder are established in the same Member State and where they are established in different Member States should be allowed. In order to allow investors || better *to* understand master-feeder-structures and regulators to supervise them more easily, notably in a cross-border context, no feeder UCITS should be able to invest into more than one master. In order to ensure the same level of investor protection throughout the Community the master should || itself *be* an authorised UCITS. ***In order to avoid undue administrative burden, provisions on notification of cross-border marketing should not apply if a master UCITS does not raise capital from the public in a Member State other than that in which it is established, but has only one or more feeder UCITS in that other Member State.***
- (52) In order to protect the feeder UCITS' investors, the feeder UCITS' investment into the master UCITS should be subject to prior approval *by* the competent authorities of the feeder UCITS' home Member State. ***Only the initial investment into the master UCITS, by which the feeder UCITS exceeds the limit applicable for investing into another UCITS requires approval. In order to facilitate the effective operation of the internal market and to ensure the same level of investor protection throughout the Community, the conditions which have to be met and the documents and information which have to be provided for approving the feeder UCITS' investment into the master UCITS should be exhaustive.***
- (53) In order to allow the feeder UCITS to act in the best interests of its unit-holders and notably place it in a position to obtain from the master UCITS all information and documents necessary to perform its obligations, the feeder UCITS and the master UCITS should enter into a binding and enforceable agreement. ***However, if both are managed by the same management company, it should be sufficient that the latter set up internal***

conduct of business rules. An information-sharing agreement between the depositaries or, respectively, the auditors of the feeder UCITS and the master UCITS should ensure the flow of information and documents that is needed for the feeder UCITS' depositary or auditor to fulfil its duties. **This Directive should ensure that, when complying with those requirements, the depositaries or the auditors would not be in breach of any restriction on disclosure of information or of data protection.**

- (54) In order to ensure a high level of protection of the interests of the feeder UCITS' investors, the prospectus, the key investor information as referred to in *Article 78*, as well as all marketing communications should be adapted to the specificities of master-feeder-structures. **The investment of the feeder UCITS into the master UCITS should not affect the ability of the feeder UCITS itself either to re-purchase or redeem units at the request of its unit-holders or to act in the best interests of its unit-holders.**
- (55) **Under this Directive, unit-holders should be protected from being charged unjustified additional costs.** The prohibition that master UCITS may not charge feeder UCITS subscription and redemption fees **reflects that general principle. The master UCITS should however be able to charge subscription and redemption fees to other investors in the master UCITS.**
- (56) The conversion rules should enable an existing UCITS to convert into a feeder UCITS. At the same time they should sufficiently protect unit-holders. As such a conversion is a fundamental change of the investment policy, the converting feeder UCITS should be required to provide its unit-holders with sufficient information **in order** to enable them to decide whether **or not** to maintain their investment **█**. **Competent authorities may not require the feeder UCITS to provide more or other information than those that specified.**
- (57) **Whenever the competent authorities of the master UCITS are informed of an irregularity with regard to the master or detect that the master UCITS does not comply with the provisions of this Directive, they may decide, where appropriate, to take relevant actions to ensure that unit-holders of the master UCITS are informed accordingly.**
- (58) Member States should make a clear distinction between marketing communications and obligatory investor disclosures provided for under this Directive. Obligatory investor disclosures include key investor information, prospectus and annual and half-yearly reports.
- (59) Key investor information should be provided **as a specific document** to investors **free of charge, in good time before the subscription of the UCITS**, in order to help them to reach informed investment decisions. **Such key investor information** should contain only the essential elements for making such decisions. The nature of the information to be found in the key investor information should be **fully** harmonised **█** so as to ensure adequate investor protection and comparability. Key investor information should be presented in a short format. A single document of limited length presenting the information in a specified order is the most appropriate way to achieve the clarity and simplicity of presentation that is required by retail investors, and should allow for useful comparisons, **notably of costs and risk profile, relevant to the investment decision.**

- (60) *The competent authorities of each Member State may make available to the public, in a dedicated section of their website, key investor information concerning all UCITS constituted and authorised in that Member State.*
- (61) Key investor information should be produced for all UCITS. Management companies or, where applicable, investment companies should **provide** the key investor information to the relevant entities, depending on the distribution method used (direct sales or intermediated sales). **Intermediaries should provide** key investor information **█** to **clients and potential clients**.
- (62) *The right for UCITS to sell their units should be subject to their taking the necessary measures to ensure that facilities are available for making payments to unit-holders, repurchasing or redeeming units and making available the information which UCITS are obliged to provide.*
- (63) The right for UCITS to sell their units in other Member States should **also** be subject to a notification procedure based on improved communication between the competent authorities of the Member States. Following transmission of a complete notification file by the competent authorities of the UCITS home Member State, the UCITS host Member State should not be in the position to oppose access to its market by a UCITS established in another Member State or challenge the authorisation given by that other Member State.
- (64) In order to facilitate cross-border marketing of units of UCITS, control of compliance of arrangements made for marketing of units of UCITS with laws regulations and administrative procedures applicable in the UCITS host Member State, should be performed **█** after the UCITS has **accessed the market of** that Member State. This control can cover **the adequacy of arrangements made for marketing**, in particular **the adequacy of distribution arrangements and** the obligation for marketing communications to be presented in a fair, clear and not-misleading way. **This Directive should not prevent competent authorities of the host Member State from checking marketing communications (which does not include key investor information, prospectus and annual and half-yearly reports) according to national law before the UCITS can use them, but this control should not be discriminatory and should not prevent this UCITS from accessing the market.**
- (65) For the purpose of **enhancing** legal certainty there is a need to ensure that a UCITS which markets its units on a cross-border basis has an easy access, in the form of an electronic publication **and in a language customary in the field of international finance**, to complete information on the laws, regulations and administrative provisions applicable in the UCITS host Member State and **that specifically relate** to the **arrangements made for** marketing of UCITS. **Liabilities with regard to such publication shall be subject to national laws.**
- (66) To facilitate **access of UCITS to the markets of Member States**, a UCITS should be required to translate only the key investor information into the official language or one of the official languages of a UCITS host Member State or a language approved by its competent authority. Key investor information should specify the language(s) in which other obligatory disclosure documents and additional information are available.
- (67) *Translations are produced under the responsibility of the UCITS, which should decide whether a simple or a sworn translation is necessary.*

- (68) *To facilitate the access to the markets of other Member States, it is important that notification fees are disclosed.*
- (69) *Member States should take the necessary administrative and organisational measures to enable cooperation between national authorities and competent authorities of other Member States, including through bilateral or multilateral agreements between those authorities, which could provide for voluntary delegation of tasks.*
- (70) It is necessary to enhance convergence of powers at the disposal of competent authorities so as to bring about an equal enforcement of *this* Directive throughout the Member States. A common minimum set of powers, consistent with those conferred upon competent authorities by other Community financial services legislation should guarantee supervisory effectiveness. ***In addition, Member States should lay down rules on penalties, which may include criminal, civil and administrative penalties, and administrative measures, applicable to infringements of this Directive and should take the measures necessary to ensure that they are implemented.***
- (71) It is necessary to reinforce provisions on exchange of information between national competent authorities and to strengthen the duties of assistance and cooperation between them.
- (72) ***For the purpose of cross-border provision of services, clear competences should be assigned to the respective supervisory authorities so as to eliminate any gaps or overlaps; this should be consistent with the definition of applicable law.***
- (73) The reference to the supervisory authorities' effective exercise of their supervisory functions covers supervision on a consolidated basis which must be exercised over a UCITS or an undertaking contributing towards its business activity where the provisions of Community law so provide. In such cases, the authorities applied to for authorisation must be able to identify the authorities competent to exercise supervision on a consolidated basis over that UCITS or an undertaking contributing towards its business activity.
- (74) The principle of home Member State supervision requires that the competent authorities should not grant or should withdraw authorisation where factors such as the content of programmes of operations, the geographical distribution or the activities actually carried on indicate clearly that a UCITS or an undertaking contributing towards its business activity has opted for the legal system of one Member State for the purpose of evading the stricter standards in force in another Member State within whose territory it carries on or intends to carry on the greater part of its activities. ■
- (75) It is appropriate to provide for the possibility of exchanges of information between the competent authorities and authorities or bodies which, by virtue of their function, help to strengthen the stability of the financial system. In order to preserve the confidential nature of the information forwarded, the list of addressees must remain within strict limits.
- (76) Certain behaviour, such as fraud and insider ***offences***, is liable to affect the stability, including integrity, of the financial system, even when involving undertakings other than UCITS or undertakings contributing towards their business activity.

- (77) It is necessary to specify the conditions under which such exchanges of information are authorised.
- (78) Where it is stipulated that information may be disclosed only with the express agreement of the competent authorities, these may, where appropriate, make their agreement subject to compliance with strict conditions.
- (79) Exchanges of information between, on the one hand, the competent authorities and, on the other, central banks and other bodies with a similar function in their capacity as monetary authorities and, where appropriate, other public authorities responsible for supervising payment systems should also be authorised.
- (80) The same obligation of professional secrecy on the authorities responsible for authorising and supervising UCITS and the undertakings that take part in those activities and the same possibilities for exchanging information as those granted to the authorities responsible for authorising and supervising credit institutions, investment firms and insurance undertakings, should be included in this Directive.
- (81) For the purpose of strengthening the prudential supervision of UCITS or of undertakings contributing towards their business activity and protection of clients of UCITS or of undertakings contributing towards their business activity, it should be stipulated that an auditor must have a duty to report promptly to the competent authorities, wherever, as provided for by this Directive, he becomes aware, while carrying out his tasks, of certain facts which are liable to have a serious effect on the financial situation or the administrative and accounting organisation of a UCITS or an undertaking contributing towards its business activity.
- (82) Having regard to the aim in view, it is desirable for Member States to provide that such a duty should apply in all circumstances where such facts are discovered by an auditor during the performance of his tasks in an undertaking which has close links with a UCITS or an undertaking contributing towards its business activity.
- (83) The duty of auditors to communicate, where appropriate, to the competent authorities certain facts and decisions concerning a UCITS or an undertaking contributing towards its business activity which they discover during the performance of their tasks in an entity which is neither a UCITS nor an undertaking contributing towards the business activity of a UCITS does not in itself change the nature of their tasks in that undertaking nor the manner in which they must perform those tasks in that undertaking.
- (84) *This Directive should not affect national rules on taxation, including arrangements that may be imposed by Member States to ensure compliance with these rules in their territory.*
- (85) *The measures necessary for the implementation of this Directive should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission¹.*
- (86) The Commission should be empowered to adopt the measures necessary for the implementation of this Directive. Concerning *management companies, those measures*

¹ OJ L 184.17.7.1999, p. 23.

are designed to specify the details regarding organisational requirements, risk management, conflicts of interest and conduct of business. Concerning depositaries, those measures are designed to specify the duties of depositaries as foreseen by this Directive in the context of the management company passport and the particulars of the agreement between the depositary and the management company. Those measures should facilitate a uniform application of the obligations of management companies and depositaries under this Directive. The adoption of those measures should not, however, be a precondition to implement the right of management companies to carry on the services for which they have been authorised in their home Member State throughout the Community by establishing branches or under the freedom to provide services including the management of UCITS in another Member State.

- (87) **Concerning** mergers, those measures are designed to specify detailed content and way to provide information to unit-holders. Concerning master-feeder structures, those measures are designed to specify the particulars to be included in the agreement between master and feeder, their depositaries and their auditors, the definition of measures appropriate to prevent late trading risks, the impact of the merger of the master on the authorisation of the feeder, the type of irregularities originating from the master to be reported to the feeder, the way and format of the information to be provided to unit-holders in case of conversion from a UCITS to a feeder UCITS, the procedure for valuating and auditing the transfer of assets from a feeder to a master and the role of the depositary of the feeder in this process. Concerning the provisions on disclosure, those measures are designed to specify the specific conditions to be met when the prospectus is provided in a durable medium other than paper and by means of a website which does not constitute a durable medium, the detailed content, form and presentation of the key investor information taking into account the different nature or components of the UCITS concerned, and the specific conditions for delivering key investor information in a durable medium other than paper and by means of a website which does not constitute a durable medium. Concerning notification, those measures are designed to specify the **■** scope of the information on the applicable local rules to be published by host *competent authorities* **■** and the technical details on access by host *competent authorities* to **stored and updated UCITS documents** **■**. Those measures are also designed to clarify definitions and to align terminology and framing definitions in accordance with subsequent acts on UCITS and related matters.
- (88) Since those measures are of general scope and are designed to amend non-essential elements of this Directive, by supplementing it with new non-essential elements, they must be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC **||**. Powers not falling under the above category should be subject to the regulatory procedure provided in Article 5 of *that* Decision. Those measures are designed to specify the form and content of the standardised notification letter, the standard model of attestation and the procedure for the exchange of information and the use of electronic communication during the notification process. They are also designed to detail the procedures for on-the-spot verifications and investigations **and** exchange of information between competent authorities.
- (89) Since the objectives of the action to be taken cannot be sufficiently achieved by the Member States in so far they involve the adoption of rules with common features applicable at transnational level and can therefore, by reason of the scale and effects of the action, be better achieved at Community level, the Community may adopt measures,

in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Directive does not go beyond what is necessary to achieve those objectives.

- (90) The obligation to transpose this Directive into national law should be confined to those provisions which represent a substantive change as compared with the earlier Directive. The obligation to transpose the provisions which are unchanged arises under the earlier Directives.
- (91) This Directive should be without prejudice to the obligations of the Member States relating to the time-limits for transposition into national law and application of the Directives set out in Annex III, Part B.
- (92) *In accordance with point 34 of the Interinstitutional Agreement on better law-making¹, Member States are encouraged to draw up, for themselves and in the interest of the Community, their own tables illustrating, as far as possible, the correlation between this Directive and the transposition measures, and to make them public,*

Member States may allow UCITS to be constituted of several investment compartments.

3. The undertakings referred to in paragraph 2 may be constituted according to law, either under the law of contract (as common funds managed by management companies) or trust law (as unit trusts) or under statute (as investment companies).

Article 4

CHAPTER II

Authorisation of UCITS

Article 5

1. No UCITS shall carry on activities as such unless it has been authorised by the competent authorities of *its home* Member State ■ .

Such authorisation shall be valid for all Member States.

2. A common fund shall be authorised only if the competent authorities *of its home Member State* have approved *the application of* the management company *to manage the UCITS*,

¹ *OJ L 390, 31.12.2004, p. 38.*

the fund rules and the choice of depositary. An investment company shall be authorised only if the competent authorities *of its home Member State* have approved both its instruments of incorporation and the choice of depositary, *and, where relevant, the application of the designated management company to manage the UCITS.*

3. *Without prejudice to paragraph 2, if the UCITS is not established in the management company's home Member State, the competent authorities of the UCITS home Member State shall approve the application of the management company to manage the UCITS pursuant to Article 20. It must not be made a condition of authorisation that the UCITS be managed by a management company having its registered office in the UCITS home Member State or that the management company performs or delegates any activities in the UCITS home Member State.*
4. The competent authorities *of the UCITS home Member State* may not authorise a UCITS if:
 - (a) *such authorities establish that the investment company does not comply with the preconditions laid down in Chapter V; or,*
 - (b) *the management company is not authorised as a UCITS management company in its home Member State.*

Without prejudice to Article 27, the management company or, where applicable, the investment company shall be informed, within two months of the submission of a complete application, whether or not authorisation has been granted.

Moreover, the competent authorities *of the UCITS home Member State* may not authorise a UCITS if the directors of the depositary are not of sufficiently good repute or are not sufficiently experienced also in relation to the type of UCITS to be managed. To that end, the names of the directors of the depositary and of every person succeeding them in office shall be communicated forthwith to the competent authorities.

Directors shall mean those persons who, under the law or the instruments of incorporation, represent the depositary, or who effectively determine the policy of the depositary.

5. The competent authorities *of the UCITS home Member State* shall not grant authorisation if the UCITS is legally prevented (for example, through a provision in the fund rules or instruments of incorporation) from marketing its units in its home Member State.
6. Neither the management company nor the depositary may be replaced, nor may the fund rules or the instruments of incorporation of the investment company be amended, without the approval of the competent authorities *of the UCITS home Member State.*
7. *Member States shall ensure that complete information on the laws, regulations and administrative provisions implementing this Directive which relate to the constitution and functioning of the UCITS is easily accessible at a distance or by electronic means. Member States shall ensure that this information is available, at least, in a language customary in the sphere of international finance, provided in a clear and unambiguous manner, and kept up-to-date.*

CHAPTER III

Obligations regarding management companies

Section 1

Conditions for taking up business

Article 6

1. Access to the business of management companies shall be subject to prior official authorisation to be granted by the competent authorities of the *management company's* home Member State. Authorisation granted under this Directive to a management company shall be valid for all Member States.
2. No management company may engage in activities other than the management of UCITS authorised according to this Directive except the additional management of other collective investment undertakings which are not covered by this Directive and for which the management company is subject to prudential supervision but which cannot be marketed in other Member States under this Directive.

The activity of management of common funds and of investment companies shall include, for the purpose of this Directive, the functions mentioned in Annex II.

3. By way of derogation from paragraph 2, Member States may authorise management companies to provide, in addition to the management of common funds and of investment companies, the following services:
 - (a) management of portfolios of investments, including those owned by pension funds, in accordance with mandates given by investors on a discretionary, client-by-client basis, where such portfolios include one or more of the instruments listed in Annex I, Section C to Directive 2004/39/EC;
 - (b) as non-core services:
 - (i) investment advice concerning one or more of the instruments listed in Annex I, Section C to Directive 2004/39/EC,
 - (ii) safekeeping and administration in relation to units of collective investment undertakings.

Management companies may in no case be authorised under this Directive to provide only the services mentioned in this paragraph or to provide non-core services without being authorised for the service referred to in point (a) of the first subparagraph.

4. Articles 2(2), 12, 13 and 19 of Directive 2004/39/EC shall apply to the provision of the services referred to in paragraph 3 of this Article by management companies.

Article 7

1. Without prejudice to other conditions of general application laid down by national law, the competent authorities shall not grant authorisation to a management company unless the following conditions are met:
 - (a) the management company has an initial capital of at least EUR 125 000, taking into account the following:
 - (i) when the value of the portfolios of the management company exceeds EUR 250 000 000, the management company shall be required to provide an additional amount of own funds; this additional amount of own funds shall be equal to 0,02 % of the amount by which the value of the portfolios of the management company exceeds EUR 250 000 000; the required total of the initial capital and the additional amount shall not, however, exceed EUR 10 000 000;
 - (ii) for the purpose of this paragraph, the following portfolios shall be deemed to be the portfolios of the management company:
 - common funds managed by the management company including portfolios for which it has delegated the management function but excluding portfolios that it is managing under delegation,
 - investment companies for which the management company is the designated management company,
 - other collective investment undertakings managed by the management company including portfolios for which it has delegated the management function but excluding portfolios that it is managing under delegation;
 - (iii) irrespective of the amount of these requirements, the own funds of the management company shall never be less than the amount prescribed in Article 21 of Directive 2006/49/EC;
 - (iv) Member States may authorise management companies not to provide up to 50 % of the additional amount of own funds referred to in point (i) if they benefit from a guarantee of the same amount given by a credit institution or an insurance undertaking; the credit institution or insurance undertaking shall have its registered office in a Member State, or in a third country provided that it is subject to prudential rules considered by the competent authorities as equivalent to those laid down in Community law;
 - (b) the persons who effectively conduct the business of a management company are of sufficiently good repute and are sufficiently experienced also in relation to the type of UCITS managed by the management company; to that end, the names of these persons and of every person succeeding them in office must be communicated

forthwith to the competent authorities; the conduct of the business of a management company must be decided by at least two persons meeting such conditions;

- (c) the application for authorisation is accompanied by a programme of activity setting out, at least, the organisational structure of the management company;
 - (d) both the head office and the registered office of the management company are located in the same Member State.
2. Where close links exist between the management company and other natural or legal persons, the competent authorities shall grant authorisation only if those close links do not prevent the effective exercise of their supervisory functions.

The competent authorities shall also refuse authorisation if the laws, regulations or administrative provisions of a third country governing one or more natural or legal persons with which the management company has close links, or difficulties involved in their enforcement, prevent the effective exercise of their supervisory functions.

The competent authorities shall require management companies to provide them with the information they require to monitor compliance with the conditions referred to in this paragraph on a continuous basis.

3. An applicant shall be informed, within six months of the submission of a complete application, whether or not authorisation has been granted. Reasons shall be given whenever an authorisation is refused.
4. A management company may start business as soon as authorisation has been granted.
5. The competent authorities may withdraw the authorisation issued to a management company subject to this Directive only where that company:
- (a) does not make use of the authorisation within 12 months, expressly renounces the authorisation or has ceased the activity covered by this Directive more than six months previously unless the Member State concerned has provided for authorisation to lapse in such cases;
 - (b) has obtained the authorisation by making false statements or by any other irregular means;
 - (c) no longer fulfils the conditions under which authorisation was granted;
 - (d) no longer complies with Directive 2006/49/EC if its authorisation also covers the discretionary portfolio management service referred to in Article 6(3)(a) of this Directive;
 - (e) has seriously and/or systematically infringed the provisions adopted pursuant to this Directive; or
 - (f) falls within any of the cases where national law provides for withdrawal.

Article 8

1. The competent authorities shall not grant authorisation to take up the business of management companies until they have been informed of the identities of the shareholders or members, whether direct or indirect, natural or legal persons, that have qualifying holdings and of the amounts of those holdings.

The competent authorities shall refuse authorisation if, taking into account the need to ensure the sound and prudent management of a management company, they are not satisfied as to the suitability of the aforementioned shareholders or members.

2. In the case of branches of management companies that have registered offices outside the Community and are starting or carrying on business, the Member States shall not apply provisions that result in treatment more favourable than that accorded to branches of management companies that have registered offices in Member States.
3. The competent authorities of the other Member State involved shall be consulted beforehand on the authorisation of any management company which is one of the following:
 - (a) a subsidiary of another management company, an investment firm, a credit institution or an insurance undertaking authorised in another Member State;
 - (b) a subsidiary of the parent undertaking of another management company, an investment firm, a credit institution or an insurance undertaking authorised in another Member State;
 - (c) a company controlled by the same natural or legal persons as control another management company, an investment firm, a credit institution or an insurance undertaking authorised in another Member State.

Section 2

Relations with third countries

Article 9

1. Relations with third countries shall be regulated in accordance with the relevant rules laid down in Article 15 of Directive 2004/39/EC.

For the purpose of this Directive, the expressions "investment firm" and "investment firms" contained in Article 15 of Directive 2004/39/EC shall be construed respectively as «management company" and "management companies"; the expression "providing investment services" in Article 15(1) of Directive 2004/39/EC shall be construed as "providing services".

2. Member States shall inform the Commission of any general difficulties which UCITS encounter in marketing their units in any third country.

Section 3

Operating conditions

Article 10

1. The competent authorities of the management company's home Member State shall require that the management company which they have authorised complies at all times with the conditions laid down in Article 6 and Article 7 (1) and (2).

The own funds of a management company may not fall below the level specified in Article 7 (1)(a). If they do, however, the competent authorities may, where the circumstances justify it, allow such firms a limited period in which to rectify their situations or cease their activities.

2. The prudential supervision of a management company shall be the responsibility of the competent authorities of management company's home Member State, whether the management company establishes a branch or provides services in another Member State or not, without prejudice to those provisions of this Directive which give responsibility to the competent authorities of management company's host Member State.

Article 11

5. Investment companies' home Member States may decide that investment companies established on their territory which market at least 80 % of their units through one or more stock exchanges designated in their instruments of incorporation shall not be required to have depositaries within the meaning of this Directive provided that their units are admitted to official listing on the stock exchanges of those Member States within the territories of which the units are marketed, and that any transactions which such a company may effect outwith stock exchanges are effected at stock exchange prices only.

The instruments of incorporation of a company shall specify the stock exchange in the country of marketing the prices on which shall determine the prices at which that company will effect any transactions outwith stock exchanges in that country.

A Member State shall avail itself of the derogation provided for in the first subparagraph only if it considers that unit-holders have protection equivalent to that of unit-holders in UCITS which have depositaries within the meaning of this Directive.

In particular, such companies and the companies referred to in paragraph 4, shall:

- (a) in the absence of provision in law, state in their instruments of incorporation the methods of calculation of the net asset values of their units;

- (c) establish the net asset values of their units, communicate them to the competent authorities at least twice a week and publish them twice a month.

At least twice a month, an independent auditor shall ensure that the calculation of the value of units is effected in accordance with the law and the instruments of incorporation of the company.

On such occasions, the auditor shall make sure that the company's assets are invested in accordance with the rules laid down by law and the instruments of incorporation of the company.

- 6. Member States shall inform the Commission of the identities of the companies benefiting from the derogations provided for in paragraphs 4 and 5.

- 2. A depositary shall be an institution which is subject to *prudential regulation* and *on-going supervision*.
- 3. Member States shall determine which of the categories of institutions referred to in paragraph 2 shall be eligible to be depositaries.
- 4. *The depositary shall enable the competent authorities of the UCITS home Member State to obtain on request all information, which the depositary has obtained while discharging its duties, and which are necessary for the competent authorities to supervise compliance of the UCITS with the requirements under this Directive.*
- 5. *If the management company's home Member State is not the UCITS home Member State, the depositary shall sign a written agreement with the management company regulating the flow of information deemed necessary to allow it to perform the functions referred to in Article 22 and in other laws, regulations and administrative provisions which are relevant for depositaries in the UCITS home Member State.*
- 6. *The Commission may adopt implementing measures on the measures to be taken by a depositary in order to fulfil its duties regarding a UCITS managed by a management company situated in another Member State, including the particulars that need to be included in the standard agreements to be used by the depositary and the management company referred to in paragraph 4.*

Those measures, designed to amend non-essential elements of this Directive by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 112(2).

Article 34

A depositary shall, in accordance with the national law of the investment company's home Member State, be liable to the investment company and the unit-holders for any loss suffered by them as a result of its unjustifiable failure to perform its obligations, or its improper performance of them.

Article 35

1. No single company shall act as both investment company and depositary.
2. In carrying out its role as depositary, the depositary shall act solely in the interests of the unit-holders.

Article 36

The law or the instruments of incorporation of the investment company shall lay down the conditions for the replacement of the depositary and rules to ensure the protection of unit-holders in the event of such replacement.

Article 51

1. The management or investment company shall employ a risk-management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the portfolio.

It shall employ a process for accurate and independent assessment of the value of OTC derivatives.

It shall communicate to the competent authorities *of its home Member State* regularly and the types of derivative instruments, the underlying risks, the quantitative limits and the methods which are chosen in order to estimate the risks associated with transactions in derivative instruments regarding each managed UCITS.

2. Member States may authorise UCITS to employ techniques and instruments relating to transferable securities and money market instruments under the conditions and within the limits which they lay down provided that such techniques and instruments are used for the purpose of efficient portfolio management.

When these operations concern the use of derivative instruments, these conditions and limits shall conform to the provisions laid down in this Directive.

Under no circumstances shall *those* operations cause the UCITS to diverge from its investment objectives as laid down in the UCITS' fund rules, instruments of incorporation or prospectus.

3. A UCITS shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the third and fourth subparagraphs.

A UCITS may invest, as a part of its investment policy and within the limit laid down in *Article 52(5)*, in financial derivative instruments provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in *Article 52*. Member States may *provide* that, when a UCITS invests in index-based financial derivative instruments, *those* investments do not have to be combined to the limits laid down in *Article 52*.

When a transferable security or money market instrument embeds a derivative, the derivative shall be taken into account when complying with the requirements of this Article.

4. ***Without prejudice to Article 116, the Commission shall adopt, by 1 July 2010, implementing measures specifying the following:***

Those measures, designed to amend non-essential elements of this Directive by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 112(2).

Article 52

1. A UCITS may invest no more than 5 % of its assets in transferable securities or money market instruments issued by the same body.

A UCITS may not invest more than 20 % of its assets in deposits made with the same body.

The risk exposure to a counterparty of the UCITS in an OTC derivative transaction may not exceed either of the following:

- (a) 10 % of its assets when the counterparty is a credit institution referred to in *Article 50 (1)(f)*;
 - (b) 5 % of its assets, in other cases.
2. Member States may raise the 5 % limit laid down in the first subparagraph of paragraph 1 to a maximum of 10 %. However, the total value of the transferable securities and the money market instruments held by the UCITS in the issuing bodies in each of which it invests more than 5 % of its assets must not then exceed 40 % of the value of its assets. This limitation shall not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits laid down in paragraph 1, a UCITS may not combine, where this would lead to investment of more than 20% of its assets in a single body, any of the following:

- (a) investments in transferable securities or money market instruments issued by that body;
 - (b) deposits made with that body;
 - (c) exposures arising from OTC derivative transactions undertaken with that body.
3. Member States may raise the 5 % limit laid down in the first subparagraph of paragraph 1 to a maximum of 35 % if the transferable securities or money market instruments are issued or guaranteed by a Member State, by its local authorities, by a third country or by public international bodies to which one or more Member States belong.
 4. Member States may raise the 5 % limit laid down in the first subparagraph of paragraph 1 to a maximum of 25 % in the case of certain bonds when these are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. In particular, sums deriving from the issue of these bonds shall be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in the event of failure of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.

When a UCITS invests more than 5 % of its assets in the bonds referred to in the first subparagraph and issued by one issuer, the total value of these investments shall not exceed 80 % of the value of the assets of the UCITS.

Member States shall send the Commission a list of the categories of bonds referred to in the first subparagraph together with the categories of issuers authorised, in accordance with the laws and supervisory arrangements mentioned in that subparagraph, to issue bonds complying with the criteria set out above. A notice specifying the status of the guarantees offered shall be attached to these lists. The Commission shall immediately forward that information to the other Member States together with any comments which it considers appropriate, and shall make the information available to the public. Such communications may be the subject of exchanges of views within the European Securities Committee.

5. The transferable securities and money market instruments referred to in paragraphs 3 and 4 shall not be taken into account for the purpose of applying the limit of 40 % referred to in paragraph 2.

The limits provided for in paragraphs 1 to 4 may not be combined, and thus investments in transferable securities or money market instruments issued by the same body or in deposits or derivative instruments made with this body carried out in accordance with paragraphs 1 to 4 shall under no circumstances exceed in total 35 % of the assets of the UCITS.

Companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with

recognised international accounting rules, shall be regarded as a single body for the purpose of calculating the limits contained in this Article.

Member States may allow cumulative investment in transferable securities and money market instruments within the same group up to a limit of 20 %.

Article 53

1. Without prejudice to the limits laid down in *Article 56*, Member States may raise the limits laid down in *Article 52* to a maximum of 20 % for investment in shares or debt securities issued by the same body when, according to the fund rules or instruments of incorporation, the aim of the UCITS' investment policy is to replicate the composition of a certain stock or debt securities index which is recognised by the competent authorities, on the following basis:
 - (a) its composition is sufficiently diversified;
 - (b) the index represents an adequate benchmark for the market to which it refers;
 - (c) it is published in an appropriate manner.
2. Member States may raise the limit laid down in paragraph 1 to a maximum of 35 % where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit shall only be permitted for a single issuer.

Article 54

1. By way of derogation from *Article 52*, Member States may authorise UCITS to invest in accordance with the principle of risk-spreading up to 100 % of their assets in different transferable securities and money market instruments issued or guaranteed by any Member State, its local authorities, a third country or public international bodies of which one or more Member States are members.

The UCITS competent authorities shall grant such a derogation only if they consider that unit-holders in the UCITS have protection equivalent to that of unit-holders in UCITS complying with the limits laid down in *Article 52*.

Such a UCITS shall hold securities from at least six different issues, but securities from any one issue shall not account for more than 30 % of its total assets.

2. The UCITS referred to in paragraph 1 shall make express mention in the fund rules or in the instruments of incorporation of the investment company of the Member States, local authorities or public international bodies issuing or guaranteeing securities in which they intend to invest more than 35 % of their assets.

Such fund rules or instruments of incorporation shall be approved by the competent authorities.

3. Each UCITS referred to in paragraph 1 shall include a prominent statement in its prospectus and marketing communications drawing attention to such authorisation and indicating the Member States, local authorities and/or public international bodies in the securities of which it intends to invest or has invested more than 35 % of its assets.

Article 55

1. A UCITS may acquire the units of UCITS or other collective investment undertakings referred to in *Article 50(1)(e)*, provided that no more than 10 % of its assets are invested in units of a single UCITS or other collective investment undertaking. Member States may raise the limit to a maximum of 20 %.
2. Investments made in units of collective investment undertakings other than UCITS may not exceed, in aggregate, 30 % of the assets of the UCITS.

Member States may allow that, when a UCITS has acquired units of UCITS or other collective investment undertakings, the assets of the respective UCITS or other collective investment undertakings do not have to be combined for the purposes of the limits laid down in *Article 52*.

3. When a UCITS invests in the units of other UCITS or other collective investment undertakings that are managed, directly or by delegation, by the same management company or by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge subscription or redemption fees on account of the UCITS's investment in the units of such other UCITS or collective investment undertakings.

A UCITS that invests a substantial proportion of its assets in other UCITS or collective investment undertakings shall disclose in its prospectus the maximum level of the management fees that may be charged both to the UCITS itself and to the other UCITS or collective investment undertakings in which it intends to invest. In its annual report it shall indicate the maximum proportion of management fees charged both to the UCITS itself and to the UCITS or other collective investment undertaking in which it invests.

Article 56

1. An investment company or a management company acting in connection with all of the common funds which it manages and which fall within the scope of this Directive shall not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.

Pending further coordination, Member States shall take account of existing rules defining the principle stated in the first subparagraph under other Member States' legislation.

2. An investment company or common fund may acquire no more than:
 - (a) 10 % of the non-voting shares of any single issuing body;

- (b) 10 % of the debt securities of any single issuing body;
- (c) 25 % of the units of any single UCITS or other collective investment undertaking within the meaning of *Article 1(2)(a) and (b)*;
- (d) 10 % of the money market instruments of any single issuing body.

The limits laid down in points (b), (c) and (d) may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market instruments, or the net amount of the securities in issue, cannot be calculated.

3. A Member State may waive application of paragraphs 1 and 2 as regards:
- (a) transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;
 - (b) transferable securities and money market instruments issued or guaranteed by a third country;
 - (c) transferable securities and money market instruments issued by public international bodies of which one or more Member States are members;
 - (d) shares held by a UCITS in the capital of a company incorporated in a third country investing its assets mainly in the securities of issuing bodies having their registered offices in that country, where under the legislation of that country such a holding represents the only way in which the UCITS can invest in the securities of issuing bodies of that country. This derogation, however, shall apply only if in its investment policy the company from the third country complies with the limits laid down in *Articles 52 and 55* and in paragraphs 1 and 2 of this Article. Where the limits set in *Articles 52 and 55* are exceeded *Article 57* shall apply mutatis mutandis;
 - (e) shares held by an investment company or investment companies in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is established, in regard to the repurchase of units at unit-holders' request exclusively on its or their behalf.

Article 57

1. UCITS need not comply with the limits laid down in this Chapter when exercising subscription rights attaching to transferable securities or money market instruments which form part of their assets.

While ensuring observance of the principle of risk spreading, Member States may allow recently authorised UCITS to derogate from *Articles 52 to 55* for six months following the date of their authorisation.

2. If the limits referred to in paragraph 1 are exceeded for reasons beyond the control of a UCITS or as a result of the exercise of subscription rights, that UCITS shall adopt as a

priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its unit-holders.

CHAPTER VIII

Article 58

1. A feeder UCITS is a UCITS **or an investment compartment thereof**, which **has been approved to invest**, by way of derogation from Article 1(2)(a), *Article 50*, *Article 52*, *Article 55* and *Article 56(2)(c)*, at least 85 % of its assets in units of another UCITS **or an investment compartment thereof** ("the master UCITS") **■**.

Article 59

1. Member States shall ensure that the investment of a feeder UCITS into a given master UCITS **which exceeds the limit applicable under Article 55(1) for investments into other UCITS** be subject to prior approval by the competent authorities of the feeder UCITS' home Member State.

authorities of the *master UCITS* home Member State **■** that the master UCITS is *a UCITS, or an investment compartment thereof, which fulfils the conditions set out in Article 58(3)(b) and (c). Documents shall be provided by the feeder UCITS in the official language, or one of the official languages, of the feeder UCITS home Member State or in a language approved by its competent authorities.*

Section 2

2. The master UCITS and the feeder UCITS shall take appropriate measures to ***coordinate the timing of their net asset value calculation and publication in order to avoid market timing in their fund units, preventing arbitrage opportunities.***
3. ***Without prejudice to Article 84, if*** a master UCITS temporarily suspends the re-purchase, redemption ***or subscription*** of its units, whether at its own initiative or at the request of its competent authorities, each of its feeder UCITS is entitled to suspend the re-purchase, redemption ***or subscription*** of its units notwithstanding the conditions laid down in *Article 84(2)* within the same period of time as the master UCITS.

Unless the competent authorities of the feeder UCITS' home Member State had granted approval pursuant to point (a) of the first subparagraph, the ***master UCITS shall enable the*** feeder UCITS ***to*** re-purchase or redeem all units in the master UCITS before the merger or division of the master UCITS becomes effective.

Neither the depositary of the master UCITS nor that of the feeder UCITS, when complying with the requirements laid down in this Chapter, shall be in breach of any restriction on disclosure of information or of data protection imposed by contract or by any legislative, regulatory or administrative provision nor shall such behaviour involve such depositary or any person acting on its behalf in liability of any kind.

Article 77

All marketing communications to investors shall be clearly identifiable as such. They shall be fair, clear and not misleading. *In particular, any marketing communications comprising an invitation to purchase units of UCITS that contains specific information about a UCITS shall make no statements that contradict or diminish the significance of* the information contained in the prospectus and the key investor information referred to in *Article 78.
